

# ARCHITECTS BOARD OF WESTERN AUSTRALIA

## CPD Providers

Information Sheet 03

3 March 2009

### Continuing Professional Development Providers

Continuing Professional Development (CPD) for architects is provided by many organisations including professional associations such as the Australian Institute of Architects, government organisations, private providers, universities and other education and training organisations.

The Board will **not** accredit CPD providers. Architects should assess the published information about the activity, the reputation of the provider, the quality of the activity and relevance of the subject matter to determine if a particular activity is appropriate to their needs.

This list of CPD providers has been developed as a guide for architects, and is not a complete list of CPD activities available to architects in Western Australia.
